

Improving the water quality of the Chisago County Chain of Lakes

Clean Water Funds: 2012

Clean Water Grant	\$238,640
Leveraged Funds*	\$65,000
Total Project Budget	\$303,640

* Leveraged Funds include

Targeted Water:

Chisago Lakes Chain of Lakes,
Sunrise River, St. Croix River

Project Sponsor:

Chisago Soil and Water
Conservation District

Grant Period:

January 2012—December 2014

Project Contact:

Craig Mell, District Administrator

C12-1 - Clean Water Assistance

Project Narrative

In partnership with the Chisago Lakes Lake Improvement District, subwatershed assessments for the communities of Center City, Lindstrom and Chisago City, all within the Chisago Lakes Chain of Lakes watershed have been completed. The tourism economy of these communities depends on the Chisago Lakes Chain of Lakes.

Reducing pollution to the lakes will ensure that the area is a premiere fishing destination for years to come. The cumulative reduction of phosphorus and sediment to South Center, North Center, North Lindstrom and South Lindstrom Lakes will help meet the water quality goals that will be defined in the clean up study currently underway.

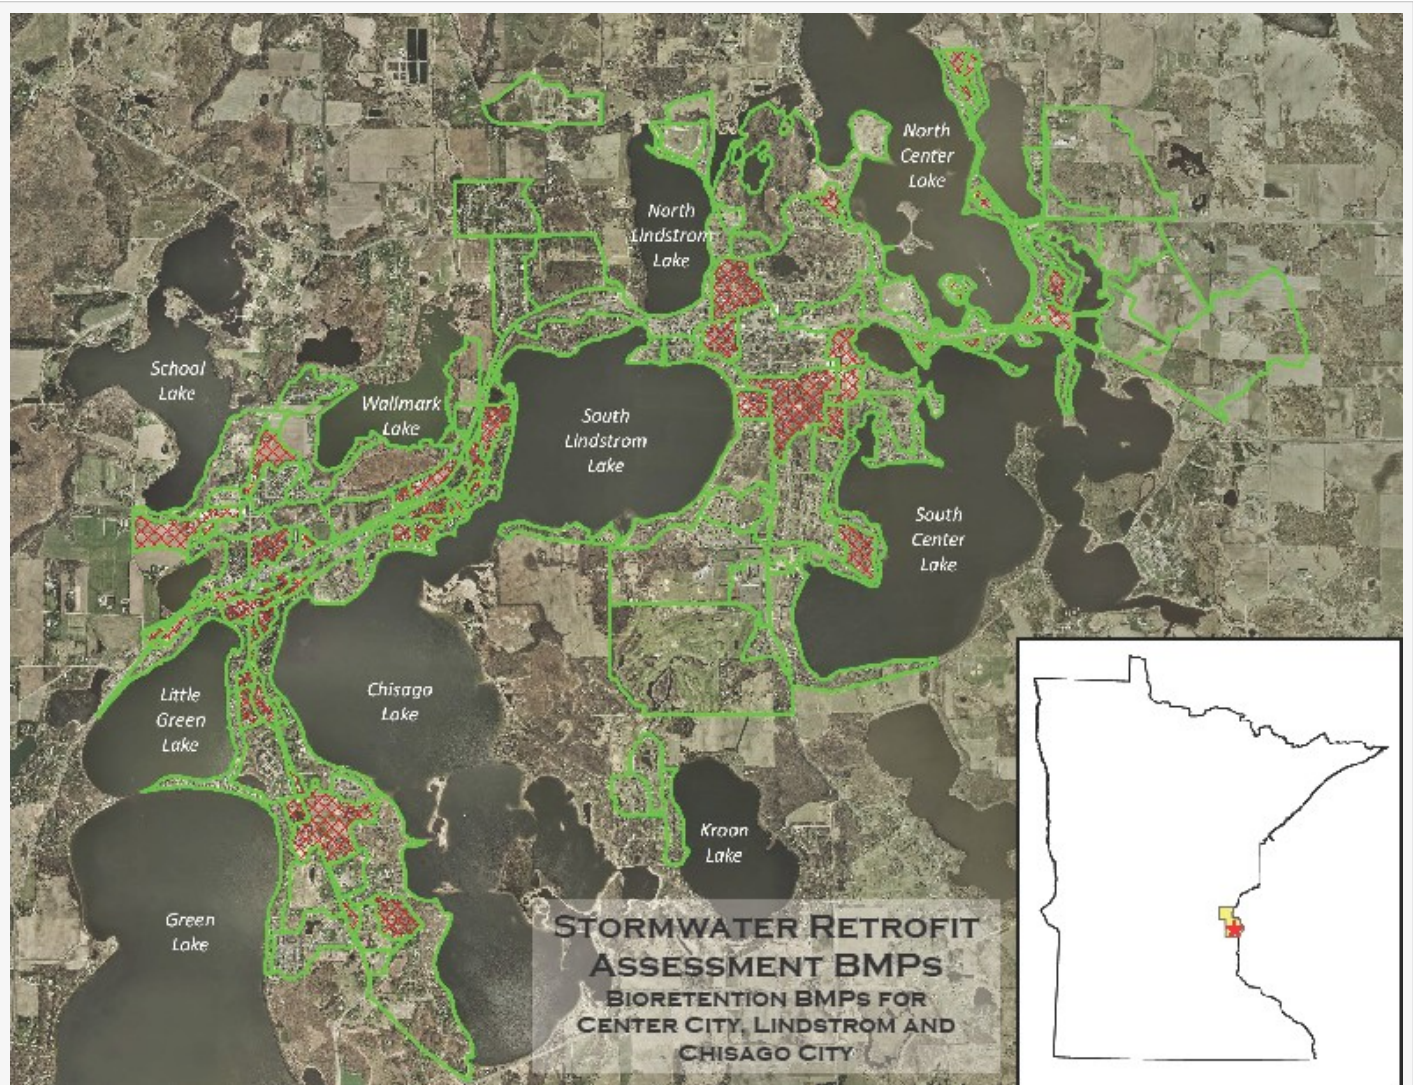

Proposed Outcomes:

Proposed Reductions: 16 acre feet/year Hydrology, 30 lbs/year Phosphorus and 12 tons/year Sediment

Actual Outcomes:

Project in Progress
